| Note generali | International conference proceedings. Includes author index. |
| Nota di contenuto | Cooperative Strategies for Decision Making and Optimization. - Computational Swarm Intelligence.- Machine Learning in Medicine and Biometrics.- Cyber Physical Systems in Automotive Area.- Internet of Things -- Its Relations and Consequences.- Text Processing and Information Retrieval.- Low Resource Language Processing.- Computer Vision Techniques.- Intelligent Processing of Multimedia in Web Systems. |
| Sommario/riassunto | This two-volume set (LNAI 10448 and LNAI 10449) constitutes the refereed proceedings of the 9th International Conference on Collective Intelligence, ICCCI 2017, held in Nicosia, Cyprus, in September 2017. |

The 117 full papers presented were carefully reviewed and selected from 248 submissions. The conference focuses on the methodology and applications of computational collective intelligence, including: multi-agent systems, knowledge engineering and semantic web, social networks and recommender systems, text processing and information retrieval, data mining methods and applications, sensor networks and internet of things, decision support & control systems, and computer vision techniques.
